

# ***360 Inventory: Team Assessment***

## **Turning Insight into Action**

### **Purpose**

- Equip leaders and teams to diagnose, own, and accelerate improvement across complex systems.
- Transforms a standard inventory process into a catalyst for learning, accountability, and measurable performance.

### **Key Outcomes**

- Master diagnostic and inventory methods to reveal performance drivers.
- Build trust and ownership across leadership, technical, and stakeholder teams.
- Shift from reaction to accountability, creating actionable “Bridge to Success” plans.
- Strengthen cross-functional collaboration and sustain results through follow-up coaching.

### **Program Overview**

- A structured engagement combining consulting, facilitation, and coaching.
- XD experts guide interviews, workshops, and planning sessions to turn data into decisions and insight into real, lasting improvement.
